

**TOWN OF MISHICOT – MANITOWOC COUNTY
APPLICATION FOR PERMIT TO INSTALL CULVERT/DRIVEWAY
WITHIN TOWN OF MISHICOT HIGHWAY RIGHT-OF-WAY**

Driveway side slopes shall be of earth material, covered with black ground, and seeded or of gravel, 3/4 inch or less. No concrete or bituminous side slopes shall be constructed. Grade shall be no less than a 3 to 1 slope as per diagram below. The culvert must be a minimum of 5 feet from property line and parallel to the roadway. Culvert must be a minimum of 18 inches x 30 feet long unless special variance is granted from the town board in writing. Longer culverts are required where large equipment will travel. All culverts must include metal end walls.

All culvert/driveway installations must comply with the Manitowoc County Firefighter’s Association Driveway Guidelines.

CULVERT/DRIVEWAY MUST BE COMPLETED WITHIN 60 DAYS FROM THE START OF THE PROJECT. THE CULVERT PERMIT IS VALID FOR ONE (1) YEAR FROM DATE OF ISSUANCE.

Location of work with respect to roadway:

Work is on the east west north south side of the road.
(please circle one)

Road Name _____ Section Number _____

Land Tax Parcel Number _____

Reason for Culvert Installation _____

Attach diagram of land parcel showing location of work to be done.

In the performance of this work, I will comply with terms and conditions of any permit that may be issued by the State, County or Local Highway Offices.

Please set out a stake, flag or some other identifying marker on each side of proposed culvert location.
